

1. Video Guide

Scanning the QR code on the left will take you to the AnticipaLead video tutorial. It contains the exact same information as the Quick Start Guide.

2. Download

If you haven't downloaded the game materials yet, the QR code will also take you to our download assistant. This tool bundles and prepares the exact materials you need for immediate download.

3. Printing

Below you will find an overview of all the materials you need to print out per group to prepare for the game.

- 1 x Technology Cards A4
- 1 x Canvas Part 1 A3
- 1 x Canvas Part 2 A3
- 1 x Name Tags A4
- 1 x Role Cards A4

Important Notes:

- If you want to play multiple rounds, you will need several copies of Canvas Part 2.
- If you have downloaded materials for multiple scenarios or versions with and without a change of perspective, please note that these versions require different **role cards**, **name tags**, and **canvases**.
- Please note that the **technology cards** need to be cut out.
- If you are playing the version with changes of perspective, we recommend printing the **role cards** double-sided.

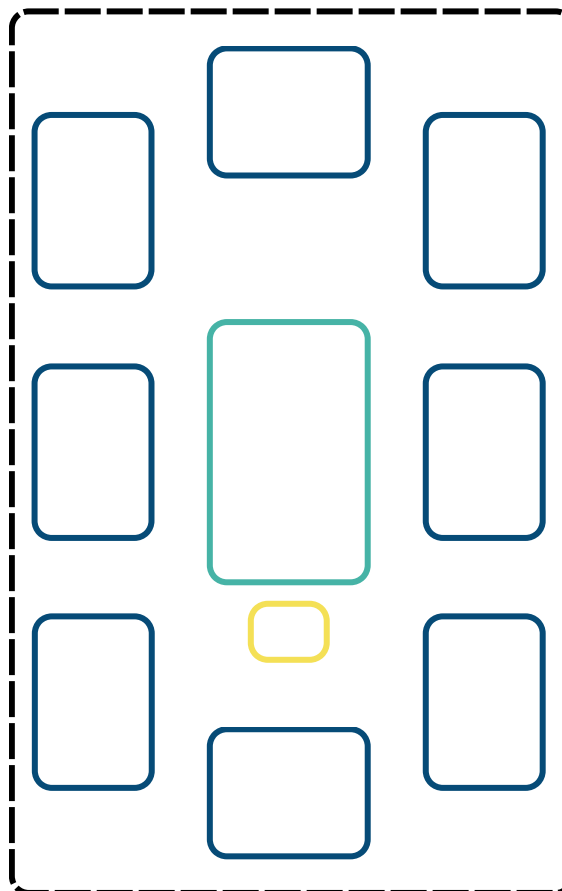

4. Preparation

To play AnticipaLead, you will need a way to play an **audio file**, **between five and seven players**, and a table large enough for everyone, in addition to the printed materials. No external moderator is required during the game.

If you are playing the version with changes of perspective and have fewer than seven players, make sure the roles of **Ethicist**, **Executor**, **Integrator**, and **Analyst** are filled. The roles are distributed randomly to all players.

Before starting the game, set up the materials on the table as follows:

- Role Cards and Name Tags
- Technology Cards
- Canva 1 and 2

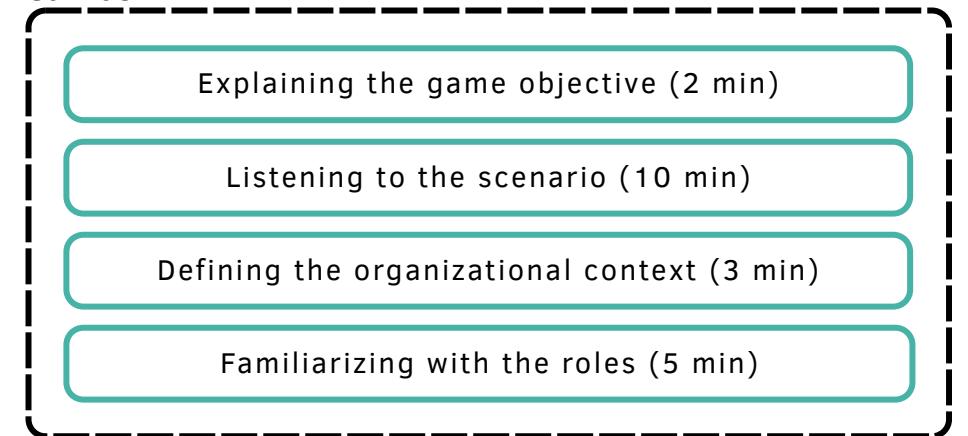

5. Gameplay

During the game, the canvases will guide you through each individual phase. Please read the texts aloud so that all players can understand them clearly.

The following flowchart provides a brief overview of the gameplay based on the canvases, along with recommended time limits for each step.

Canvas 1

Canvas 2
