

Canvas 02 - Round: _

Get started

- You are now immersed in your scenario and role. Please follow the steps on Canvas 02 to continue your game.
- If you wish to start a new round, please take a new Canvas 02 and label it with the corresponding round number.

5. New Technology

Please draw a technology card and read it aloud.

First, discuss the key implications of this technology in your group and ensure that all players develop a shared understanding.

6. Discussion

In the next step, discuss the use of the technology in your company and scenario based on the following questions. Together, develop a consensus that you can later present to your superior. Make sure to consistently stick to the leadership style of your role throughout the discussion.

Record the conclusions you have reached, as well as the arguments that were decisive in arriving at them on this canvas.

To what extent does the use of the technology change the understanding of leadership and decision-making, possibly shifting it from humans toward systems?

What risks arise from the use of the technology, and who bears the responsibility for the consequences that result from it?

How do we ensure that the use of the technology adequately takes ethical, legal, and social implications (ELSI) into account?

How do we address potential tensions among our employees and stakeholders that may arise for social or cultural reasons?

7. Reflection

You have now reached the end of this discussion. Please reflect together:

1. What do we take away from this discussion for real decisions in the future?
2. Which viewpoints and lines of reasoning had the biggest impact on the discussion?
3. Which individuals shaped the group process most strongly, and why?

8. Completion

You have reached the end of this round of the game. You may now play another round with a new technology card by starting with a new blank Canvas 02. Your roles and the scenario remain the same. The technology card from this round no longer has any relevance for the next round.

Alternatively, you can end the game here and present your results to your superior (= the other teams).
